

[Plenary Session-1, Liver, Pancreatobiliary, GI Oncology]

Abstract No.	Title	Name	Institution	Country
OPR-01	Limited Performance of the Steatosis-associated fibrosis estimator (SAFE) score in Young Asian Patients with Steatotic Liver Disease	Jiwon YANG	Liver Center, Asan Medical Center, University of Ulsan College of Medicine, Seoul, Republic of Korea	Korea
OPR-02	Changes in insulin resistance in metabolic-associated steatotic liver disease and its association with liver-related outcomes: a retrospective study and a nationwide, population-based study	Sang Yi MOON	Dong-A University College of Medicine	Korea
OPP-01	Clinical features and long-term outcomes of CFTR, PRSS1, and SPINK1 Mutations in 670 Patients with Idiopathic Pancreatitis	Yoonchan LEE	University of Ulsan College of Medicine	Korea
OPP-02	Spatially resolved dynamics of heterogeneous cancer subclusters and cancer-associated niches in human pancreatic cancer	Galam LEEM	Yonsei University College of Medicine	Korea
OPO-01	Probiotic clostridium butyricum presents an inhibitory effect on chemoresistant colorectal cancer	Zheng HUANG	The University of Hong Kong	Hong Kong
OPO-02	Second-line palliative cytotoxic chemotherapy in patients with advanced biliary cancer who received gemcitabine and cisplatin with or without nab-paclitaxel	Jaihan KIM	Seoul National University Bundang Hospital	Korea

[Plenary Session-2, Upper GI, Lower GI, Motility]

Abstract No.	Title	Name	Institution	Country
OPU-01	Application of a Multi-Task Convolutional Neural Network to Differentiate Gastric Gastrointestinal Stromal Tumors from Benign Subepithelial Lesions in Endoscopic Ultrasound Images	Kwangbeom PARK	Nowon Eulji Medical Center	Korea
OPU-02	Molecular Landscapes of Gastric Dysplasia and Cancer	Mi Jin OH	Seoul National University College of Medicine	Korea
OPL-01	The Tumour-Suppressive Role of GPR15L in Colorectal Cancer	Wai Yan SIN	The University of Hong Kong	Hong Kong
OPL-02	Comparative Efficacy of Subcutaneous Infliximab in Remission and Non-remission Patients with Inflammatory Bowel Disease after Switching from Maintenance of Intravenous Infliximab: One-year Outcomes from a Multicenter Cohort Study	Jun Hwa BAE	University of Ulsan College of Medicine, Asan Medical Center	Korea
OPM-01	The effects of fermented rice drink with Lactiplantibacillus Plantarum JSA22 in patients with IBS accompanied by overweight; A randomized, double-blind, placebo-controlled study	Jung Ho PARK	Kangbuk Samsung Hospital	Korea
OPM-02	Machine Learning for Predicting Response to Dietary Interventions in Functional Dyspepsia: A Novel Approach to Personalized Treatment	Rifaldy FAJAR	Karlstad University	Sweden

[Free Paper-Upper GI]

Abstract No.	Title	Name	Institution	Country
OFU-02	Real time in vivo diagnosis of gastric cancers using Raman spectroscopy	Byeong Yun AHN	Armed Forces Seoul Center District Hospital, Seoul, Korea	Korea
OFU-03	Artificial Intelligence for Diagnosing Gastric Intestinal Metaplasia : A Comparative Analysis with the Performance of Endoscopists	Bokyoung KIM	Seoul National University Hospital, Seoul National University College of Medicine	Korea
OFU-04	Different survival rates of patients with gastric cancer depending on age and sex: a large-scale study	Yonghoon CHOI	Seoul National University Bundang Hospital	Korea
OFU-06	Changing patterns of upper gastrointestinal bleeding over 20 years in Korea	Joon Yeon KIM	Seoul National University College of Medicine	Korea
OFU-01	Prevalence and Associated Factors of Gastrointestinal Disease in Indonesia: Analysis from the Indonesia Family Life Survey	Nadyatul HUSNA	Universitas Andalas	Indonesia
OFU-05	Real-World Risk of Gastrointestinal Bleeding for Direct Oral Anticoagulant and Warfarin Users: A Distributed Network Analysis Using a Common Data Model	Yunjin YUM	Kyung Hee University School of Medicine	Korea

[Free Paper-Lower GI]

Abstract No.	Title	Name	Institution	Country
OFL-02	Correlations between the SES-CD score and fecal calprotectin in pediatric Crohns disease	Yiyoung KWON	Inha University School of Medicine	Korea
OFL-03	Comparison of Long-Term Durability of Biologic Therapies for Moderate-to Severe Crohn's Disease	Soyun LIM	Seoul National University	Korea
OFL-01	Endoscopic and Evolutionary Profile of Acute Severe Ulcerative Colitis	Asmaa EL AZHARI	Ibn Rochd University Hospital	Morocco
OFL-05	Rising prevalence of overweight population in Inflammatory Bowel Disease patients and its associated clinical outcome	Min Kyu KIM	Asan Medical Center, University of Ulsan College of Medicine	Korea
OFL-04	Does Urgent Colonoscopic Intervention Improve Outcomes of Post-Polypectomy Bleeding? A CHASID Multicenter Study	Seongwoo CHOI	Soonchunhyang University College of Medicine	Korea
OFL-06	Diagnostic significance of inflammatory cytokines and antimicrobial peptides in malabsorption syndrome	Svetlana GELLER	Republican Specialized Scientific and Practical Medical Center of Pediatrics	Uzbekistan

[Free Paper-Liver]

Abstract No.	Title	Name	Institution	Country
OFR-01	Increased risk of fragile fractures in patients with primary biliary cholangitis	Jihye LIM	Yeouido St. Marys Hospital, College of Medicine, The Catholic University of Korea	Korea
OFR-02	Synergistic anticancer effects of combined immunotherapy and PI3K gamma inhibitors in liver cancer	Yunmi KO	Seoul National University College of Medicine	Korea
OFR-03	Comparison of the Effects of Entecavir and Tenofovir Alafenamide on Kidney Function in Chronic Hepatitis : Propensity score matched retrospective cohort studyB	Eun Jee LIM	Seoul National University Bundang Hospital	Korea
OFR-05	Efficacy of Sodium Glucose Co-transporter 2 Inhibitor on a Progression of Nonalcoholic Steatohepatitis in a Murine Steatohepatitis Model	Woung CHANG	Soonchunhyang University College of Medicine	Korea
OFR-04	Updated Definition of Healthy Alanine Aminotransferase Levels in a Metabolically and Histologically Normal Population	Jonggi CHOI	Asan Medical Center	Korea
OFR-06	Association between Sarcopenia and Coronary Atherosclerosis in Metabolic dysfunction-Associated Steatotic Liver Disease	Yeonjung HA	CHA Bundang Medical Center, CHA University	Korea

[Free Paper-Pancreatobiliary]

Abstract No.	Title	Name	Institution	Country
OFP-04	Distinct microbiome composition and network formation in saliva, feces, and blood of patients with pancreatic cancer	Jaihan Kim	서울의대	Korea
OFP-01	Oral microbiome signatures enable noninvasive diagnosis of pancreatic ductal adenocarcinoma in Korean patients	Moon Jae CHUNG	Yonsei University College of Medicine, Yonsei University College of Medicine	Korea
OFP-02	The Real World Data of FOLFIRINOX Versus Gemcitabine/Abiraxne in Metastatic Pancreatic Cancer	Jeehoon KIM	Yonsei University College of Medicine, Yonsei University College of Medicine	Korea
OFP-03	Silent gallbladder stone in kidney transplantation recipients: should it be treated? a retrospective cohort study	Myeong Hwan LEE	Seoul National University Hospital	Korea
OFP-06	A short fully covered self-expandable metal stent for management of benign biliary stricture other than living-donor liver transplantation	See Young LEE	Gangnam Severance Hospital, Yonsei University College of Medicine	Korea
OFP-05	Integrating Genetic Markers and Ultrasound Imaging through Deep Learning for Early Detection of Cholestasis in Gallstone Disease Risk Patients	Rifaldy FAJAR	Sweden	Sweden

[Free Paper-Motility]

Abstract No.	Title	Name	Institution	Country
OFM-01	Repeat Peroral Endoscopic Myotomy: Technical Difficulty and Risk Factors	Li-Yun MA	Zhongshan Hospital, Fudan University	China
OFM-02	Clinical outcomes of botox injection according to subgroups of esophagogastric junction outflow obstruction	Geon Woo LEE	Pusan National University Yangsan Hospital	Korea
OFM-03	A Multinational Survey on Real-world Application of Anorectal manometry in Asian countries	Seon-Young PARK	Chonnam National University Medical School	Korea
OFM-04	Stingless Bee Honey Promising as an Antidepressant for Gastroesophageal Reflux Disease - A Literature Review	Diasido PARDEDE	Universitas Muhammadiyah Palangka Raya	Indonesia
OFM-05	Clinical Application of the Chicago Protocol 4.0 for Esophageal Manometry: a Multinational Survey	Soo In CHOI	Inje university Sanggye Paik hospital	Korea
OFM-06	The comparison of complication rates with reflux after per-oral endoscopic myotomy (POEM) in achalasia versus esophagogastric junction outflow obstruction (EGJO)	Boram CHA	Inha University School of Medicine	Korea

[Free Paper-GI Oncology]

Abstract No.	Title	Name	Institution	Country
OFO-01	Preoperative Systemic Inflammatory Response Biomarker Analysis on Prediction Towards Colorectal Cancer Patients Survival: a Systematic Review and Meta-Analysis	Muhammad Bilal SAIFULHAQ	Saiful Anwar Regional Hospital, Brawijaya University	Indonesia
OFO-02	Artificial Intelligence Diagnostic Software versus Expert Endoscopists in Diagnosing Invasion Depth of Early Gastric Cancer	Yuna KIM	Division of Gastroenterology, Gangnam Severance Hospital, Yonsei University College of Medicine	Korea
OFO-04	Stomach cancer disease burden, trend, inequalities, and predictions in octogenarian people in 204 countries and territories,1990-2019: a population-based study	Ping WANG	The Affiliated Hospital of Southwest Medical University	China
OFO-06	Analysis after biological safety test with biocompatible features improved biliary stent using rabbit & mice	Hyung Tae KIM	S&G BIOTECH	Korea
OFO-03	Influence of sex difference on molecular markers including PD-L1, COX-2, and NRF2 in colorectal carcinogenesis	Chin-Hee SONG	Seoul National University Bundang Hospital	Korea
OFO-05	The Impact of Distress at Diagnosis in Patients with Pancreatic Cancer Undergoing Pancreatectomy	In Woong HAN	Samsung Medical Center, Sungkyunkwan University School of Medicine	Korea

[KSG-GEST]

Abstract No.	Title	Name	Institution	Country
OFG-01	The Sensitivity of Fecal Immunochemical Test for Detecting Advanced Serrated Polyp	Chiuan-Bo HUANG	National Taiwan University Hospital	Taiwan
OFG-04	Fecal Hemoglobin Concentration Guided Personalized Surveillance after Polypectomy	Mark Pi-Chun CHUANG	National Taiwan University Hospital	Taiwan
OFG-05	Association between Serum ALT Elevation and HBsAg Seroclearance Following Withdrawal of Nucleos(t)ide Analogues in Patients with Chronic Hepatitis B	Shang-Chen TSENG	Division of Gastroenterology and Hepatology, E-Da Hospital, I-Shou University, Kaohsiung, Taiwan	Taiwan
OFG-06	Direct Oral Anticoagulants and Vitamin K Antagonist for Benign Portal Vein Thrombosis in Patients with Cirrhosis	Yeojin LEE	Asan Medical Center	Korea
OFG-03	Associations between factors at diagnosis in pediatric patients with Crohn's disease: results from a multicenter, registry-based, inception cohort study	Ben KANG	School of Medicine, Kyungpook National University	Korea
OFG-02	Bleeding Risk for Concomitant Anticoagulant and NSAID Therapy Compared with Anticoagulant Monotherapy	Yunjin YUM	Kyung Hee University Hospital at Gangdong	Korea
